Ace That Test

A Student's Guide to Learning Better

Megan Sumeracki, Cynthia Nebel, Carolina Kuepper-Tetzel, Althea Need Kaminske

This exciting new text reveals the effective study strategies that will help you to use your time more efficiently, ace your tests, and retain information over time. In full colour and accompanied by beautifully illustrated graphics, *Ace That Test* offers evidence-based learning strategies that students can use during their study sessions, including dual coding and the power of retrieving what they know. With QR codes linking to answers to embedded questions and supplemental material, this is essential reading for college, university, and school students as well as educators teaching study skills or learning to learn courses.

All About SEMH: A Practical Guide for Secondary Teachers

Sarah Johnson

Series: All About SEND

This book is an accessible and informative guide for secondary school teachers, designed to increase their understanding of social, emotional and mental health needs and enhance their toolkit with practical, evidence-informed strategies to support children in their care. It unpicks key terminology and debunks myths and misconceptions, enabling teachers to more easily understand some of the challenges for learners with SEMH needs. It then explores a range of key areas and focuses on practical strategies and adaptations that can be made in every classroom. *All About SEMH* is essential reading for all secondary school educators, SENCOs and parents who are supporting children with SEMH needs.

All About Dyscalculia: A Practical Guide for Primary Teachers

Judy Hornigold

Series: All About SEND

All About Dyscalculia is an accessible and informative guide for primary school teachers, designed to increase their knowledge and understanding of dyscalculia and provide practical strategies and advice to build the self-esteem and motivation of learners in their care. The book explores the indicators of dyscalculia, before detailing a range of teaching strategies that will support dyscalculic children and help them to develop their mathematical understanding and resilience. It is essential reading for all mainstream primary teachers and SENCOs, as well as a helpful guide to supporting children with dyscalculia at home.

From EdTech to PedTech

Changing the Way We Think about Digital Technology

Fiona Aubrey-Smith, Peter Twining

Aimed at teachers and leaders looking to create greater impact on teaching and learning through the use of digital technology in schools, *From EdTech to PedTech* translates research on the effective integration of digital technology in education into relevant, accessible and practical guidance for teachers and school leaders. This much-needed handbook bridges the gap between knowing 'what works' and knowing how to make it work for you and your learners. This engaging research-informed guide is an essential resource for any school leader or classroom teacher looking to maximise the value and the learning impact of digital technology in their school.

Inside/Outside: A Nature-Themed Resource Book for Embedding Emotional Literacy

Joe Harkness

Inside/Outside is a unique resource for those working with young people of secondary school age, providing a variety of indoor and outdoor lessons and activities to promote and embed emotional literacy. The book is divided into three sections: emotions and feelings; self and situation; and mental health and wellbeing. The inside activities inspire students to self-reflect and develop empathy, and those outside draw on nature and learning outside the classroom. Focusing on equipping students with tangible skills to support them in the recognition, identification, and expression of their emotions, this book is a valuable resource for teachers, youth workers and home-educators.

Primary Education Voices

Matt Roberts

Over the past two years, the Primary Education Voices podcast has welcomed dozens of inspirational educators with a variety of roles across primary education to share what they are passionate about. This book gives some of these educators the chance to discuss their ideas, research and reflections in a more in-depth manner to help the reader reflect more deeply about their own practice. These ideas and insights will be essential to all who work within the primary sector including trainees, early career teachers, middle and senior leaders as well as all those who support and consult with these individuals who seek to change and improve their practice.

Teaching Well

Understanding Key Dynamics of Learning-Centered Classrooms

Stephen D. Brookfield, Jürgen Rudolph, Shannon Tan

What does it mean to teach well? In short, it means a willingness to do anything that helps students learn. Teaching Well investigates the fundamental principle of what teaching effectively entails by exploring the key dynamics of a learning-centered classroom. Based on interviews with renowned scholar Stephen Brookfield, this book covers a wide range of topics – such as classroom democratization, critical thinking and reflection, race and power, and more. A timely text, Teaching Well is the ideal companion for all college and university educators and experienced practitioners across the globe who continue to reflect critically about their teaching practice.

Why Play Matters: 101 Activities for Developmental Play to Support Young Children

Caroline Essame

Grounded in evidence-based practice, this book inspires and informs readers to understand play, and offers ideas and practical activities to use with the children in their care. Drawing from the holistic and inclusive model of Developmental Play, activities focus on supporting aspects of social, emotional, physical, and cognitive development. Playfulness is fundamental to healthy development and this book shows why play matters, how it works, and why readers should bring play back into children's lives to give them the best start in life for the best chance in life. It is essential reading for early years practitioners, primary school teachers, occupational therapists, and parents.

A Life Well Lived

Dialogues with a "Kabouter"

Manfred F. R. Kets de Vries

Manfred Kets de Vries wears many "hats"—psychoanalyst, executive coach, consultant, management educator, researcher, writer—but he has noticed that whichever hat he is wearing, every question he is asked boils down to one thing: "How can I live a well-lived life?". This book is one of the most important books he has written for coaches, students, leaders, managers, educators – or anyone seeking a more reflective text to guide them through the multitude of questions that we face in work and in life. He draws on a long literary tradition of the unexpected encounter with a wise "other", to animate an exploration of the deepest questions and concerns of human beings.

Beyond Hybrid Working

A Smarter & Transformational Approach to Flexible Working

Andy Lake

Much more than a book about flexible working, this is an engaging and practical management book to help organisations rethink all aspects of traditional work in the emerging post-pandemic landscape and reap the benefits from working smarter. It sets out a strategic, comprehensive and integrated approach to Smart Working in the context of new possibilities for working on a more distributed basis, and the impact of new AI-based technologies coming over the horizon. With detailed case studies, the book takes an evidence-based approach covering different sectors and types of work, including more hands-on and site-specific roles, and presents practical techniques for implementing change.

GLUE

Transforming Leadership in a Hybrid World

John Dore

In a world of flexible, remote and hybrid working, how do you create and maintain strong relationships with, and amongst, employees who are often working apart from one another? Leaders need to refocus on harnessing relationships, making their organisations more humane, and finding new ways to engage and unleash talent. To do that, the single, most impactful thing leaders can do is to create and nurture an intangible, yet essential factor called 'glue'. This book shows how leaders can shape the effectiveness of teams, reimagine the workplace, and reinvigorate the business to retain the loyalty of customers through the talents, ideas, and energy of their firm's best people.

* For **full contents** and more information, visit: www.routledge.com/9781032324807

Susan E. Schwartz

This insightful book explores the 'as-if' personality through the lens of Jungian analytical psychology, illuminating how the same forces that can disturb personal development relationally, socially, and culturally are equally an impetus toward expressing and relating with ones more complete self. Using understandable language to interweave various psychoanalytical and philosophical frameworks, Imposter Syndrome and the 'As-If' Personality in Analytical Psychology: The Fragility of Self is both accessible to general readers and highly relevant to professional analysts, therapists, clinicians, and social workers.

Raising Sexually Intelligent Kids

Practical Skills for Parents, Carers and Educators

Routledge
December 2023:172

Eddie Capparucci, Nathan Jones

This book provides a comprehensive overview of the Inner Child Model™, a trauma-based approach to the treatment of various addictions including alcohol, drugs, food, gambling, sex, spending, smoking, etc. Research indicates the onset of addiction originates in childhood trauma, mood dysregulation, and attachment disorders. This book addresses each of these issues to assist individuals in overcoming the drivers of addictive behaviors. But more importantly, provides solutions to help those who struggle to learn to manage their addiction. This book is written for anyone struggling with behavioral/substance addiction, their loved ones, and clinicians working in the field of addiction treatment.

Brand Psychology

The Art and Science of Building Strong Brands

Laura Busche

Brand Psychology brings together theory and practice from the fields of psychology, design, and marketing to demystify the brand development process. It explores the behavioral science behind brand building, looking at the psychological principles at play whenever a brand is built and communicated. Containing cutting-edge brand-building tools, this book is a must-read for students and practitioners in brand management, marketing, design management, graphic design, business, advertising, and related spaces that aim to craft an identity that turns heads and hearts.

The Psychology of Attachment

Robbie Duschinsky, Pehr Granqvist, Tommie Forslund

Series: The Psychology of Everything

What do we actually mean by 'attachment'? How do different caregiving styles impact attachment in children? How do early caregiving experiences impact later development? The Psychology of Attachment is an essential introduction to attachment, offering an accessible explanation of the theory, unpicking common misunderstandings, and providing a balanced overview of key research findings. This unique book introduces the reader to new ways of thinking about the role of relationships, caregiving, and child development, and the way in which they shape our lives.

Film Music

The Basics

Kenneth Lampl

Series: The Basics

A comprehensive introduction to film music, this book provides a concise and illuminating summary of the process of film scoring, as well as a succinct overview of the rich history of contemporary film music.

Written in a non-technical style, this book begins by presenting a brief history of film music from the last 30 years, covering topics ranging from blockbuster franchises to indie film scores. Complete with a glossary of key terms and further reading, this book is an invaluable resource for all those beginning to study film music, as well as lifelong film music buffs seeking to update their understanding of film music.

Robert Hirsch

The latest edition of this pioneering book allows students to acquire an essential foundation for digital photography. Fully updated, it clearly and concisely covers the fundamental concepts of imagemaking, how to use digital technology to create compelling images, and how to output and preserve images in the digital world. Exploring history, methods, and theory, this text offers classroom-tested assignments and exercises from leading photographic educators, approaches for analyzing, discussing, and writing about photographs, and tools to critically explore and make images with increased visual literacy.

Seizing the Light

A Social & Aesthetic History of Photography

Routledge
November 2023:710
Hb: 978-1-032-10082-1: £270.00
Pb: 978-1-032-07330-9: £115.00

* For full contents and more information, visit: www.routledge.com/9781032073309

Robert Hirsch

Covering major events, practitioners, works, and social effects of photographic practice, author Robert Hirsch provides a concise and discerning chronological account of photography, drawing on influential examples. This fundamental starting place shows a multiplicity of makers, inventors, issues, and applications, exploring the artistic, critical, and social aspects of the creative thinking process. New topics include the rise of AI, mobile and drone photography, surveillance cameras, image manipulation, protest and social justice photography, and the role of social media in photography

Justice, Care, and Value

A Values-Driven Theory of Care Ethics

Thomas Randall

Series: Routledge Innovations in Political Theory

In Justice, Care, and Value Thomas Randall advances the radical potential of care ethics as a distinct (and preferable) theory of distributive justice. Topical and interdisciplinary, Randall demonstrates that care ethics has the conceptual resources to ground distributive theories of socialism, territorial and natural resource rights, obligations to future generations, and historic redress. The book will be of great interest for academics, researchers, and students in feminist philosophy, but also in liberalism, global and intergenerational theories of justice, and political economy.
